

Mercury Free Statement

Meritec does not use Mercury, Mercury compounds in our processes, information from our suppliers confirm no Mercury, Mercury compounds will be in the parts supplied to us above the RoHS allowable threshold.

Meritec uses RoHS compliant material where applicable and components that do not guarantee that Meritec's products are completely free of mercury, but only that mercury that may be contained in those materials and components meets the European Union RoHS directive.

Mercury free, in this context, is defined as products that do not contain or have come in direct contact with mercury, mercury compounds, or with any mercury containing device employing a single boundary of containment. To clarify, RoHS allows Mercury (Hg): < 100 ppm or 0.01% to comply.

Please note, this information is based on supplier input and review of our processes. Meritec does not conduct separate testing.

If you require information on a particular part number, requests can be made to info@meritec.com.
